SKILLS & ABILITIES

GitHub

Project

6 Degrees of Kevin Bacon- a Java-based project that utilizes the Neo4j graph database to find the shortest path between two actors in the context of the "Six Degrees of Kevin Bacon" game. In this game, the goal is to connect any two actors through their shared film appearances, highlighting the idea that everyone in Hollywood is separated by no more than six connections.

Leadership

- Served as Director of Events and Director of Marketing of Bangladeshi Students' Association at York.

  Increased social media growth of the club by 42% in one semester.

- Coordinated multiple events, including a concert that attracted over 400 attendees, with proceeds benefiting Distressed Children and Infants International – a charity in Bangladesh.
